

CALL FOR PAPERS

ICABSM 2020
Feb 06-07, 2020
Lisbon, Portugal

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICABSM 2020 : International Conference on Agent-Based Software Models is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Agent-Based Software Models. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agent-based software engineering
Agent-oriented software engineering
Agent-based software development
Intelligent agents and multi-agent systems
Agent-based computing
Software engineering problems
Agent-based systems
Agents and artificial intelligence
Agents and expert systems
Agents and objects

Agent-based models
Agent based modelling and simulation tools
Agent-based software configuration and deployment
Methods and techniques for simulating human systems
Complex software systems
Multi-agent systems
Agent interactions
Practice of modeling, designing, and implementing computer systems
Comparison of agent-based modeling software
