

CALL FOR PAPERS

ICS DT 2020
Feb 06-07, 2020
Lisbon, Portugal

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICS DT 2020 : International Conference on Semiconductor Devices and Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Semiconductor Devices and Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Semiconductor devices
Semiconductor technology
Semiconductor devices and circuits
Semiconductor device materials
Semiconductor device applications
Advantages and disadvantages of semiconductor device applications
Semiconductor device development
Diode
Gunn diode
IMPATT diode
Laser diode
Zener diode
Schottky diode

PIN diode
Tunnel diode
Light-emitting diode (LED)
Photo transistor
Photocell
Solar cell
Transient-voltage-suppression diode
VCSEL
Bipolar transistor
Field-effect transistor
Darlington transistor
Insulated-gate bipolar transistor (IGBT)
Unijunction transistor
