

CALL FOR PAPERS

ICBE 2020
Feb 03-04, 2020
Melbourne, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBE 2020 : International Conference on Bioinstrumentation and Electronics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bioinstrumentation and Electronics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- | | |
|---|--|
| Bioinstrumentation | Microelectrodes |
| Biomedical instrumentation and technology | Performance characteristics of transducers |
| Biomedical instruments | Recording system |
| Medical instrumentation | Biomedical signal analysis and processing techniques |
| Measuring, recording and monitoring instruments | Biomedical recorders |
| Biomedical signals | Electrocardiograph |
| Medical instrumentation systems | Model questions |
| Intelligent medical instrumentation systems | Patient monitoring systems |
| Implantable medical devices | Arrhythmia and ambulatory monitoring instruments |
| Micro-electro-mechanical systems | Foetal monitoring instruments |
| Wireless connectivity in medical instruments | Methods of monitoring foetal heart rate |
| Regulation of medical devices | Biomedical telemetry |
| Bioelectric signals and electrodes | Biotelemetry |
