

CALL FOR PAPERS

ICBTM 2020
Feb 03-04, 2020
Melbourne, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBTM 2020 : International Conference on Building Technologies and Materials is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Building Technologies and Materials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Building technology
Construction technologies
Building engineering
Architectural lighting design
Building research
Sustainable building
Building maintenance
Noise control
Building design
Architectural technology
Architectural theories and perspectives

Computer-aided drawing
Building methods and project management
Construction technologies for materials
Structural and mechanical knowledge
Building materials
Construction methods
Structural design
Mechanical and electrical services
Building codes
Contracts and specifications
