

CALL FOR PAPERS

ICCMPS 2020
Feb 03-04, 2020
Melbourne, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCMPS 2020 : International Conference on Compression Molding Process and Stages is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Compression Molding Process and Stages. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Compression molding
Process description
Stages in compression molding cycle
Process characteristics
Process schematic

Workpiece geometry
Setup and equipment
Mechanical system design of compression moulding
Compression molding of thermoplastic composites
Compression moulding of cellulose composites
