

# CALL FOR PAPERS

**ICCMPS 2020**  
**Feb 03-04, 2020**  
**Melbourne, Australia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCMPS 2020 : International Conference on Compression Molding Process and Stages is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Compression Molding Process and Stages. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Compression molding  
Process description  
Stages in compression molding cycle  
Process characteristics  
Process schematic

Workpiece geometry  
Setup and equipment  
Mechanical system design of compression moulding  
Compression molding of thermoplastic composites  
Compression moulding of cellulose composites
