

CALL FOR PAPERS

ICCRI 2020
Feb 03-04, 2020
Melbourne, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCRI 2020 : International Conference on Control, Robotics and Informatics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Control, Robotics and Informatics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Control Theory
Control Application
Networked Control
Intelligent Control
Adaptive Control
Robust Control
Distributed Control
Embedded Control
Linear and Nonlinear Control

Precision Motion Control
Control Engineering and Education
Integrated Planning and Control
Robot design, development and control
Human-robots interfaces
Network robotics
Mobile robots and autonomous systems
Human augmentation and shared control
Cybernetics
