

CALL FOR PAPERS

ICHTPP 2020
Feb 03-04, 2020
Melbourne, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHTPP 2020 : International Conference on Hydropower Technologies and Power Plants is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Hydropower Technologies and Power Plants. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Hydropower technologies and applications
Low-head hydropower
Materials and manufacturing
Hydropower systems
Hydropower plants
Run-of-the-river power plants and river power plants

Storage power plants
Pumped storage power plants
Power plants for exploiting marine energy
Francis, hydrodynamic, kaplan, pelton, and cross flow turbines
Power categories
