

CALL FOR PAPERS

ICSETEE 2020
Feb 03-04, 2020
Melbourne, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSETEE 2020 : International Conference on Sustainable Electrical Technology in Electrical Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sustainable Electrical Technology in Electrical Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Sustainable electrical technology
Sustainable electronics and
electrical equipment
Sustainability in electrical
engineering
Sustainable electrical power
systems

Energy and sustainability with
electrical power engineering
Sustainability of electric power
systems
Electrical energy storage
technologies
Sustainable batteries for
electrical energy storage
