

CALL FOR PAPERS

ICUEEA 2020
Feb 03-04, 2020
Melbourne, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICUEEA 2020 : International Conference on Urban Environment Engineering and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Urban Environment Engineering and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Urban environment engineering
Urban design and environment
Municipal engineering
Municipal infrastructure
Civil engineering
Architecture and urban planning
Architectural design and theories
Urban planning and design
Building technology science
Art design and landscape
architecture
Aesthetics and landscape
Energy conservation and equipment
Construction and renewable energy
sources

Ecological construction and
intelligent control
Sustainable infrastructure
Seismology and earthquake
engineering
Urban earthquake engineering
Earthquake engineering
Environmental engineering
Environmental science and health
Environment and social development
Environment and economic
restructuring
Environment and pollution cost
Environmental clean technology
Environment and climate change
