**Mar 12-13, 2020**  
**Miami, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSDCC 2020 : International Conference on Structural Dynamics in Cellular Communication is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Structural Dynamics in Cellular Communication. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Structural Dynamics in Cellular  
Communication  
Macromolecular machines and  
assemblages  
Protein network dynamics

Protein fluctuations and function  
Membrane proteins, complexes
