

CALL FOR PAPERS

ICGG 2020
Mar 19-20, 2020
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGG 2020 : International Conference on Geotechnics and Geohazards is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Geotechnics and Geohazards. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Geotechnics
Applied geotechnics
Current research and problems
Geotechnical engineering
Earth materials and engineering applications
Soil mechanics and rock mechanics
Geology, geophysics, and hydrology
Prediction, prevention or mitigation of natural hazards
Application of soil, rock and groundwater mechanics

Design and predicted performance of earthen structures
Design and performance prediction of the foundations of structures
Environmental geotechnics
Marine geotechnics
Biomediated and bioinspired geotechnics
Ground engineering
Geotechnical site investigation
Engineering geology
Geotechnics, rock mechanics and hydrology
