

CALL FOR PAPERS

ICCBD 2020
Mar 05-06, 2020
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCBD 2020 : International Conference on Computing and Big Data is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computing and Big Data. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Big data technologies
Data visualization and visual analytics
Big data algorithms, applications and services
Big data mining and analytics
Big data processing and querying
Algorithmic, experimental, prototyping and implementation
Natural language processing in big texts
Biomedical imaging pre-processing and analysis

Hardware and software solutions for big data searching, storing and management
Structured and unstructured data/text/web mining
Deep learning architecture, representations, unsupervised and supervised algorithms
Scalable computational intelligence tools
Novel computational intelligence approaches for data analysis
Evolutionary and bio-inspired approaches for big data analysis
New domains and novel applications related to big data technologies
