

# CALL FOR PAPERS

**ICCSCE 2020**  
**Mar 26-27, 2020**  
**Sydney, Australia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCSCE 2020 : International Conference on Civil, Structural and Construction Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Civil, Structural and Construction Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Analysis of Semi-rigid Connections  
Applied Computer Vision for Civil  
and Environmental Engineering  
Buckling and Stability  
Building Design, Construction, and  
Operation  
Civil Engineering, Management and  
Surveying  
Computer Controlled Site  
Instrumentation  
Conceptual Design Support  
Construction Automation and  
Robotics  
Construction Engineering and  
Management  
Dam Engineering  
Disaster Preparedness, Response and  
Recovery  
Distributed Computing in  
Engineering  
Dynamics and Earthquake  
Engineering

Energy for Building  
Environment and Energy  
Environmental Modeling  
Environmental Engineering  
Environmental Protection  
Formfinding, Topology and  
Structural Morphology  
Foundation Engineering  
Fracture Mechanics  
Geographical Information Systems  
Geotechnical Analysis and Design  
Ground Vibration  
Human Computer Interaction and  
Graphics  
Infrastructure Life-cycle  
Management
