

CALL FOR PAPERS

ICSEE 2020
Mar 26-27, 2020
Sydney, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSEE 2020 : International Conference on Structural Engineering and Earthquake is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Structural Engineering and Earthquake. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Building and Earthquake Engineering
Computer Methods in Structural
Analysis
Concrete Structure
Earthquake and Multi-hazards
Earthquake Risk Reduction for Urban
and Rural Areas
Emerging Technologies in Earthquake
Engineering
Engineering Mechanics and Strength
of Materials
Engineering Seismology
Experimental Studies on Earthquake
and Structural Engineering
Geomechanics
Geotechnical Engineering
Graphical and Engineering
Information
Numerical Methods in Earthquake
Engineering

Observation and Analysis of Ground
Motions
Ocean Earthquake and Tsunami
Prestressed Concrete
Protective Structures
Seismic Codes and Standards
Seismic Hazard Analysis and
Zonation
Social and Economic Impacts of
Earthquakes
Soil Engineering
Spatial Structures
Statics of Structures
Steel Structures
Structural Analysis
Structural Building Design
