

CALL FOR PAPERS

ICHRSA 2020
Mar 23-24, 2020
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHRSA 2020 : International Conference on Hyperspectral Remote Sensing and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Hyperspectral Remote Sensing and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Hyperspectral remote sensing
Hyperspectral and multi-sensor
remote sensing
Hyperspectral remote sensing
technology
Hyperspectral remote sensing
monitoring
Imaging spectroscopy
Hyperspectral imaging
Hyperspectral image sensors
Imaging spectroscopy
Technologies for hyperspectral data
acquisition

Spatial scanning
Spectral scanning
Non-scanning
Spatiospectral scanning
Distinguishing hyperspectral from
multispectral imaging
Applications
Advantages and disadvantages
Software resources
