

CALL FOR PAPERS

ICBWS 2020
Apr 06-07, 2020
Cancun, Mexico

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBWS 2020 : International Conference on Biotechnology and Water Safety is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biotechnology and Water Safety. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Water safety
Water safety techniques and technologies
Biotechnology and water safety
Chemical engineering for water safety
Water microbiology
Biology and chemistry of water safety

Rules and regulations for water safety
Water safety planning for urban water utilities
Safe water treatment and storage in the home
Safe water treatment and storage in industrial setting
Water safety for children and young people
