

CALL FOR PAPERS

ICECSA 2020
Apr 16-17, 2020
Cape Town, South Africa

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICECSA 2020 : International Conference on Electronic Control Systems and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electronic Control Systems and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Electronics and electronic control systems
Electronic control units
Design and development
Testing and validation
Control strategies
Sensors and actuators

Linking sensors to actuators
Programmable controllers
Fuzzy control
Artificial neural networks
Remote control
Robotics
