

CALL FOR PAPERS

ICASAB 2020
May 22-23, 2020
Barcelona, Spain

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICASAB 2020 : International Conference on Aquaculture Systems and Aquatic Biodiversity is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Aquaculture Systems and Aquatic Biodiversity. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Aquaculture technology
- Aquaculture production technology
- Fisheries and aquaculture
- Fish farms and technology
- Fish capture and fishing gears
- Fish pathology
- Fisheries statistics
- Aquaculture industry
- Freshwater fisheries
- Pelagic fisheries

- Shellfish fisheries
- Marketing and pricing of fish
- Regulating fisheries
- Ocean farm technologies
- Food security and small scale aquaculture
- Fish and human health
- Over fishing and ecosystem degradation
- Climate change and aquatic biodiversity
- Technological advances in aquaculture
- Challenges in aquatic health management
