

# CALL FOR PAPERS

**ICCTE 2020**  
**May 28-29, 2020**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCTE 2020 : International Conference on Chemical Thermodynamics and Energetics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Chemical Thermodynamics and Energetics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Chemical thermodynamics  
Chemical engineering  
thermodynamics  
Experimental equilibrium  
thermodynamics  
Energy, enthalpy and entropy  
Systems in chemical thermodynamics  
Laws of thermodynamics  
Chemical reactions

Phase changes  
The formation of solutions  
Internal energy  
Enthalpy  
Entropy  
Gibbs free energy
