

CALL FOR PAPERS

ICDE 2020
Jul 13-14, 2020
Ottawa, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDE 2020 : International Conference on Data Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Data Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Data Integration, Interoperability,
and Metadata
Ubiquitous Data Management and
Mobile Databases
Query processing, query
optimization, and data structures
Data Privacy and Security
Data Mining
Semi-structured data and XML
databases
Distributed, parallel, Peer to Peer
databases
Web Data Management and Deep Web

Scientific and Biological Databases
and Bioinformatics
Workflow, Web Services
Stream processing and sensor
databases
Data Grids, Data Warehousing, OLAP
Temporal, Spatial, and Multimedia
databases
Database Applications and
Experiences
Database System Internals and
Performance
