

CALL FOR PAPERS

ICCSITIS 2020
Jul 16-17, 2020
Stockholm, Sweden

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCSITIS 2020 : International Conference on Cyber Security for Internet of Things and IoT Security is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cyber Security for Internet of Things and IoT Security. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cyber security threat models and architectures
Cryptographic solutions for cyber security
Human-centric cyber security solutions
AI-based countermeasures
Cyber artificial intelligence
Cyber threat intelligence
Adversarial machine learning
Security in online social networks

Forensics of cyber-physical systems
Machine learning-driven malware analysis
Cyber security analytics
Blockchain-based cyber security
Privacy and trust in the Internet of Things
Cyber Security at the Edge
Assessing risk in IoT deployments
Testbeds for IoT cyber security
