

CALL FOR PAPERS

ICASSE 2020
Sep 21-22, 2020
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICASSE 2020 : International Conference on Advances in Steel and Structural Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Steel and Structural Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Metallurgy-steel applications
Technological advancement in
construction sector
Seismic design
Composite structures
Building science and technology
Water resources engineering

Fabrication and construction
Architectural design and case
studies
Urban planning and design
Civil engineering
Concrete structure
Fire protection engineering
