

# CALL FOR PAPERS

**ICWEWT 2020**  
**Sep 21-22, 2020**  
**Toronto, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWEWT 2020 : International Conference on Web Engineering and Web Testing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Web Engineering and Web Testing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Web engineering  
Principles and techniques  
Web development practices  
Web development process  
Architecture design  
Web page design  
Web maintenance  
Project management  
Web system design  
Web testing and evaluation  
Categories of web applications  
Evolutionary web development

Modeling disciplines  
Design disciplines, tools and methods  
Implementation disciplines  
Testing disciplines  
Applications  
Web quality  
Web effort estimation  
Effort estimation technique  
Web usability  
Web system reliability and performance  
Web application testing  
Web productivity measurement
