

# CALL FOR PAPERS

**ICCPES 2020**  
**Nov 05-06, 2020**  
**Amsterdam, The Netherlands**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCPES 2020 : International Conference on Cyber-Physical Energy Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cyber-Physical Energy Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Hybrid modeling and simulation  
Co-simulation of multi-domain systems  
Ontologies for energy systems  
Applications of cyber-physical energy systems  
Distributed algorithms and control

Standards in interfacing components  
Formal languages for energy systems  
Smart grid modeling  
Smart cities modeling  
Design of simulations/experiments
