

# CALL FOR PAPERS

**ICCC 2020**  
**Dec 24-25, 2020**  
**Vienna, Austria**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCC 2020 : International Conference on Cybernetics and Computers is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cybernetics and Computers. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computer science and cybernetics  
Cybernetics and its application  
Computer systems and algorithms  
Systems and circuits  
Engineering mathematics  
Analysis of cybernetic systems  
Computer programming technologies  
Functional programming  
Logic and discrete mathematics  
Electronic devices  
Software engineering  
Algorithmic techniques

Neurocomputation  
Computer controlled feedback systems  
Machine intelligence  
Virtual reality  
Manipulator robotics  
Mechatronics  
Computer networking  
GUI, web and multimedia design  
XML technologies and applications  
Evolutionary computation  
Distributed systems  
Linear algebra for computer vision and robotics
