

CALL FOR PAPERS

ICAFPT 2021
Jan 14-15, 2021
Bali, Indonesia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAFPT 2021 : International Conference on Advances in Fixed Point Theory is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Fixed Point Theory. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Finite difference calculus
Systems of delay differential equations
Biological and engineering different models
Anomalous social and physical behaviors
Discrete fractional equations
Finite difference equations
Fixed point

Fractional differential equations
Inclusion
Integral equations
Iterative method
Modelling problems
Multifunction
