

# CALL FOR PAPERS

**ICMBBP 2021**  
**Jan 18-19, 2021**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMBBP 2021 : International Conference on Marine Biogeochemistry and Biogeochemical Processes is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Marine Biogeochemistry and Biogeochemical Processes. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Marine biogeochemistry  
Biogeochemistry of marine systems  
Marine biogeochemical processes and modeling  
Methods in biogeochemistry  
Incubation experiments  
Radioactive tracers  
Specific inhibitors  
Marine biogeochemical modeling  
Conceptual models and computer models  
Carbon cycle  
Marine sediments

Sources and components of marine sediments  
Global patterns of sediment distribution  
Bacteria and marine biogeochemistry  
Approaches in marine biogeochemistry  
Life and environments at small scale  
Biogeochemistry of near shore environments  
Human influences on ecosystem cycling  
Fluctuations in living marine resources  
Mass balance in marine biogeochemistry  
Regulation and limits of microbial processes
