

# CALL FOR PAPERS

**ICCEPR 2021**  
**Mar 22-23, 2021**  
**Dubai, UAE**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCEPR 2021 : International Conference on Civil Engineering Projects is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Civil Engineering Projects. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Civil engineering  
Civil engineering works  
Civil engineering planning  
Planning in construction  
Preparing daily, weekly and monthly schedules  
Working out resource requirements  
Project management tools  
Reconciliation of major materials  
Monitoring of procurement  
Micro planning  
Civil engineering contracts  
Civil engineering construction  
Infrastructure projects

Manufacturing processes  
Civil engineering practice  
Specialist practice  
Practical application of new technologies  
Transport systems and water supply networks  
Consultant of civil engineering works  
Construction management and analysis  
Environmental concerns  
Creating and maintaining structures  
Materials science and statistical analysis  
Functional structures  
Strengthening and rehabilitating structures  
Structures that surround us: buildings, transport networks, energy and water supplies
