

CALL FOR PAPERS

ICASB 2021
Apr 29-30, 2021
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICASB 2021 : International Conference on Agricultural Systems and Biosecurity is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Agricultural Systems and Biosecurity. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agricultural and biosystems
engineering
Food and agricultural biosecurity
Plant production technologies
Enzyme systems and their
applications
Fundamental and applied aspects of
food biotechnology
Computational and systems biology
Synthetic biology and cellular
design
Biotechnology and bioengineering
Ecological and environmental
engineering
Biomaterials, including delivery
systems and materials for tissue
engineering

Biochemistry and molecular biology
Engineering of biomolecular and
cellular devices
Bioproduction and bioproduct
engineering
Biobased Energy
Entomology and plant pathology
Equipment engineering for plants
New farming management systems
Farm buildings, equipment,
structures and environment
Human and environmental sciences
