

CALL FOR PAPERS

ICIMSTB 2021
May 24-25, 2021
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIMSTB 2021 : International Conference on Improvements in MS Technologies and Biomedicine is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Improvements in MS Technologies and Biomedicine. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Innovations in Mass Spectrometry
Metabolomics/lipidomics: New MS Technologies
NMR Spectroscopy and NMR in Biomedicine
Approaches in Glycoproteins and Glycans
MS Approaches in Carbohydrates, Microbes and Biomolecule Analysis
Atom Probe Tomography
Protein Phosphorylation and Non-Covalent Interaction

Advances in Isolation, Enrichment and Separation
Structural Proteomics and Genomics
Lipidomics, Metabolomics and Ultratrace Analysis
Nano Scale and Microfluidic Separations
Hybrid Mass Spectrometry
Reactions in Mass Spectrometry
Fragmentation
Fragmentation in Organic Compounds
