

CALL FOR PAPERS

ICABIDP 2021
Jul 12-13, 2021
Ottawa, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICABIDP 2021 : International Conference on Auditory Brainstem Implants and Device Programming is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Auditory Brainstem Implants and Device Programming. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Auditory brainstem implants
Auditory pattern recognition
Device programming
Assessment and coordination
Far lateral surgical approach
Auditory outcomes

Auditory brainstem implantation in children
Nonverbal cognitive abilities and auditory performance
Postsurgical issues and performance
Intraoperative monitoring during auditory brainstem implant surgery
Multichannel auditory brainstem implant
Cochlear implants and auditory brainstem implants
