

# CALL FOR PAPERS

**ICCIP 2021**  
**Jul 12-13, 2021**  
**Ottawa, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCIP 2021 : International Conference on Cochlear Implants Programming is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cochlear Implants Programming. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cochlear implants  
Cochlear implant design  
Components of cochlear implant systems  
Internal components  
Receiver-stimulator  
Electrode arrays  
Stimulating electrodes  
External components

Telemetry  
Programming cochlear implants for auditory performance  
Speech perception  
Surgical procedure  
Usage and efficacy  
Speech perception, localization, and lateralization with bilateral cochlear implants  
Complications of cochlear implant surgery in adults and children  
Current designs and future possibilities
