

CALL FOR PAPERS

ICSASS 2021
Sep 09-10, 2021
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSASS 2021 : International Conference on Structural Analysis and Structural Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Structural Analysis and Structural Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Structural analysis
Physical structures and components
Physical tests
Classification of structures
Analysis of structures
Moment distribution and slope
deflection methods
Matrix structural analysis
Computer applications to analyze
beams
Frames and trusses
Lateral loads on high-rise
buildings

Structural systems for high-rise
buildings
International building codes
Strength of materials methods
Applied mechanics, materials
science and applied mathematics
Structure's deformations
Internal forces
Stresses
Support reactions
Accelerations
Stability
