

CALL FOR PAPERS

ICNCAMC 2022
Jan 14-15, 2022
Zurich, Switzerland

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNCAMC 2022 : International Conference on Neural Correlates of Abstract Mathematical Cognition is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Neural Correlates of Abstract Mathematical Cognition. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Neural correlates of abstract
mathematical cognition
Neuroimaging of complex or abstract
mathematical cognition
Developmental studies in
experimental psychology

Experimental and fMRI research
focused on the verbal component of
the mathematical code
Computer modelling of mathematical
cognition
