**Mar 08-09, 2022**  
**Bangkok, Thailand**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPPMAS 2022 : International Conference on Principles and Practice of Multi-Agent Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Principles and Practice of Multi-Agent Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Logic and Reasoning  
Logics of agency  
Logics of multiagent systems  
Norms  
Argumentation  
Computational Game Theory  
Uncertainty in Agent Systems  
Agent and Multi-Agent Learning  
Engineering Multi-Agent Systems  
Agent-Oriented Software Engineering  
Interaction protocols  
Commitments

Institutions and Organizations  
Normative Systems  
Formal Specification and  
Verification  
Agent Programming Languages  
Middleware and Platforms  
Testing, debugging, and evolution  
Deployed System Case Studies  
Agent-Based Modeling and Simulation  
Simulation Languages and Platforms  
Artificial Societies  
Virtual Environments  
Emergent Behavior
