

CALL FOR PAPERS

ICARMT 2022
Apr 29-30, 2022
Jerusalem, Israel

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICARMT 2022 : International Conference on Advances in Robotic Machine Tools is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Robotic Machine Tools. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

New modelling and control methods
for robotic machine tools
Green manufacturing system
development
Kinematics and dynamics of new
mechanisms

Parallel robotic machine tools'
design and development
Sustainable manufacturing system
Robotics
