

# CALL FOR PAPERS

**ICNER 2022**  
**Jun 28-29, 2022**  
**London, United Kingdom**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNER 2022 : International Conference on Nanozyme Engineering and Research is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nanozyme Engineering and Research. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nanozymes  
Nanotechnology, biology and enzyme engineering  
Recent research trends and future prospects in nanozymes  
Nanozymes for treating viral infections and cancer  
Metal oxide-based nanozymes  
Metal-based nanozymes  
Carbon-based nanozymes  
Design and synthesis of nanozymes  
Optimization of nanozymes  
Nanozyme construction and production  
Enzyme engineering and technology

Computational enzyme design  
Nanozymes for engineering applications  
Engineering and next-generation sequencing  
Structural biology and enzyme engineering  
Biomimetics and biomanufacturing  
Metabolic engineering and synthetic biology  
Protein aggregation and stability  
Cell culture engineering  
Molecular engineering and design  
Enzyme engineering and vaccine manufacturing  
Bioconjugates and glycoengineered antibodies
