

CALL FOR PAPERS

ICGEPB 2022
Dec 13-14, 2022
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGEPB 2022 : International Conference on Genetic Engineering and Plant Biology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Genetic Engineering and Plant Biology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Epigenetic Systems (DNA
Methylation, RNA-Mediated
Regulation, Histone Modifications
and Variants)
The Dynamic Epigenome
Nuclear Organization

Epigenetic Regulation of Stem Cells
and Development
Crop Epigenetics: Hybridization and
Heterosis
Natural Variation and Ecological
Epigenetics
